

# ELECTRIFY HINGHAM

HMLP has updated its programs to help you be efficient and go electric! For more information, please visit [www.hmlp.com/electrifyhingham](http://www.hmlp.com/electrifyhingham).

## Our Newest Offers

HMLP's updated rebate program now features incentives for battery-operated lawn equipment, induction stoves, heat pump dryers, and air purifiers! This is in addition to our current rebates for heat pumps, weatherization, electric vehicles, solar, and other appliances.

## Key Program Guidelines

1. You must have an active HMLP customer account in good standing with no overdue bills.
2. The rebate item must be installed at the account location.
3. Applications must be submitted in the same calendar year as the purchase (by 12/31 of the current year) OR three (3) months from the date of purchase.
4. Rebates that are \$500 or less will be issued as a credit on your HMLP electric account. Rebates greater than \$500 will be issued as a refund check from the Town of Hingham.
5. HMLP may request additional information or reject rebate applications at any time.
6. HMLP reserves the right to adjust or conclude a rebate program at any time.

## Other Incentives are Available

If natural gas is your primary heating fuel, use MassSave.com for heat/weatherization rebates. Low- to moderate-income customers may qualify for financing through the MA Community Climate Bank ([www.hmlp.com/climate-bank](http://www.hmlp.com/climate-bank)), and commercial customers may qualify for financing through the Mass Development PACE loan program ([www.hmlp.com/pace](http://www.hmlp.com/pace)). Other state and federal incentives can be found at [goclean.masscec.com/benefits-savings/](http://goclean.masscec.com/benefits-savings/).
